

# SIMTAP 4 – UPGRADE TO A PRECISION FEEDER WITH EASE

Do you want to update your blister line with a modern solids feeder? Or are you looking for more flexibility in the form of a dual feeding system? Then the solution is simple – incorporate cutting-edge technology into your line with the SimTap 4!

## WHAT WE OFFER ...

- Adding the SimTap-4 feed or replacing the existing feed system
- Compatible with the blister machines from our BEC blister lines: B 200, B 1330 G2, B 1440i/c and B 1770i/c

## ... AND THE BENEFITS FOR YOU

- Up to 60% shorter set-up times and easier-to-clean design
- Sorting plate can be removed without any tools
- New servo vibration unit with SimTap-4 format tools for reduced noise emission
- Efficient servo drives for reduced consumption of compressed air
- SimTap-3s tools can still be used when combined with adapter frame

## INTERESTED?

Then contact us. We will be happy to create an offer for you.
